No 8	COVID-19: vaccine protection - what does the data show so far?	<p>Dr. Kevin Brown is a consultant medical virologist working at Public Health England. His area of expertise is in vaccine-preventable viral infections and he has been a virologist for more than 30 years.</p> <p>This is one of a series of explainer videos for the COVID-19 vaccination programme. This video explains the data we have which shows that both vaccines provide good protection against COVID-19 disease. We are not yet clear about how long the protection lasts and we do not know if the vaccines can prevent you from catching and passing on the COVID-19 infection without having symptoms. We are continuously monitoring the vaccines and the protection. We hope to know more soon. The video also talks about the advantages of the mRNA vaccines and the future adenovector vaccines that might be available soon.</p> <p>You can read more about the COVID-19 vaccine here: https://www.gov.uk/government/publications/covid-19-vaccination-guide-for-older-adults and visit: https://www.nhs.uk/conditions/coronavirus-covid-19/coronavirus-vaccination/</p>	https://youtu.be/6ikyKhLK_Sg

<p>No 4</p>	<p>Considering the wider determinants of health when rolling out the COVID-19 vaccine</p>	<p>Julie Yates is the lead public health consultant for Screening and Immunisation for the South West of England for NHS England and Improvement.</p> <p>This video gives an insight into the work of the programme planning. The JCVI, PHE and the NHS have been developing plans that consider the evidence of contributing risk factors, include age and the impact of other diseases a person may have, as well as occupational and other socio-economic risk factors contributing to the severity of COVID-19 disease and/or risk of death. They then work back to deliver the programme in a way that protects those most at risk first and therefore reduce some of these potential health inequalities.</p> <p>To read about the risk factors and prioritisation of the COVID vaccination visit: https://www.gov.uk/government/publications/priority-groups-for-coronavirus-covid-19-vaccination-advice-from-the-jcvi-30-december-2020 For more information on the COVID-19 vaccination, visit: https://www.nhs.uk/conditions/coronavirus-covid-19/coronavirus-vaccination/ Please wait to be invited to your vaccination appointment.
