

North Central London GP pressures 2022

GP practices in North Central London are even more stretched now than before the pandemic, Londonwide LMCs compares June 2019 to June 2022. See our June 2022 survey results at: <https://www.lmc.org.uk/june22-workforce>

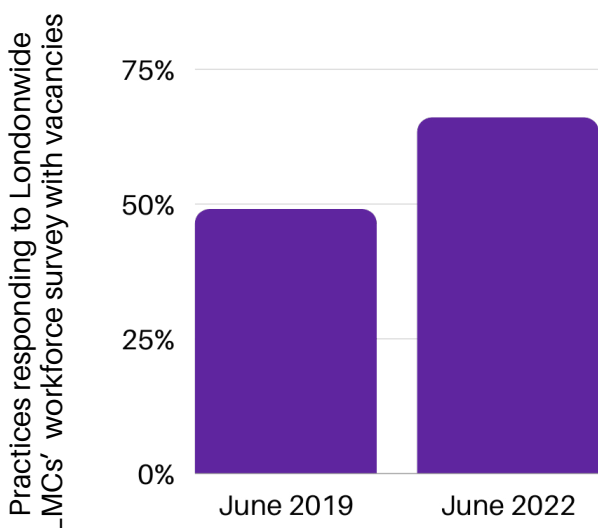

Nearly a third more appointments offered to patients...

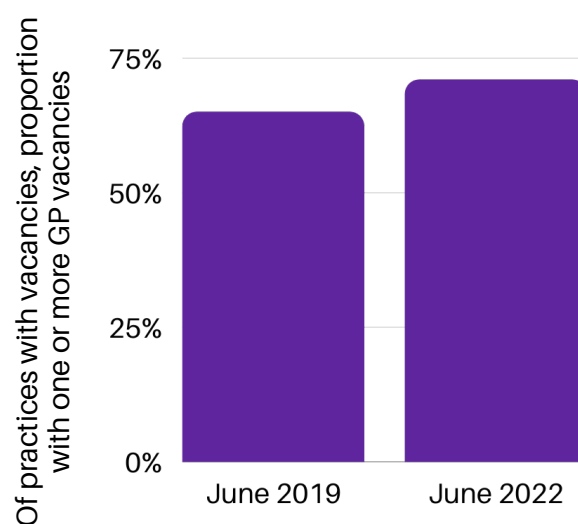

...despite 37 fewer GP practices

Two-thirds of practices have vacancies...

...over 70% are GP vacancies

Our GPs and practice teams are working hard to provide safe care for you and your community. Thank you for your patience and support.
