

LEARNING DISABILITY INVESTIGATION ENGAGEMENT EVENT

# Help shape safer care

## Improving the recognition and response to deterioration in adults with a learning disability in GP practices and through 111

WED 21 OCT 2026

10:30 – 15:00

Park Plaza County Hall, London, SE1 8SJ

**HSSIB is conducting a national investigation into how deterioration is recognised and responded to in adults with a learning disability.**

We are inviting healthcare professionals to share their experience, insights and expertise. Your contribution will help us understand what supports safe, effective and person-centred care, and where systems could be improved.

### We would like to explore

1

#### Recognition

Recognising deterioration and changes from a person's usual presentation

2

#### Challenges

Factors that make timely, safe and coordinated care more difficult

3

#### Effective practice

Approaches, adjustments and ways of working that support safer care

4

#### Improvement

Practical opportunities to strengthen care across organisational boundaries

### Who should attend?

Healthcare professionals involved in the care of adults with a learning disability

Primary and community care

Learning disability services

### About HSSIB

HSSIB conducts independent patient safety investigations to improve healthcare systems and reduce the risk of harm. We focus on understanding how care is delivered in practice and identifying opportunities for improvement, rather than assigning blame to individuals.

**REGISTER YOUR  
ATTENDANCE**
